FACT SHEET

October 2021

ASHTABULA REGIONAL SEDIMENT MANAGEMENT, OH **Regional Sediment Management - Beneficial Use of Dredged Material** Section 204 of the Water Resources Development Act of 1992, as amended Construction General (Continuing Authorities Program)

Location

- Located on Lake Erie in the City of Ashtabula, Ashtabula County, Ohio

Project Description

- This authority evaluates the use of dredged material from new or existing Federal projects to protect, restore, or create aquatic and ecologically related habitats, including wetlands; to reduce storm damage to property, in connection with dredging for construction, operation, or maintenance of an authorized navigation project
- This project will create 16.5 acres of submerged aquatic habitat
- The creation of aquatic habitat using anchored logs and log tangles will increase the density and diversity of aquatic species
- Feasibility phase is 100% funded with federal capital. Design and Implementation phase is cost-shared 65% federal and 35% non-federal

Importance

- Project is a companion project of an on-going operations and maintenance (O&M) project
- There is a need to address Areas of Concern in the Great Lakes.
- The project will use multiple dredging years of material to complete.

Consequence

- The current Federal Standard is open lake placement and there are no other approved placement locations. The project anticipates utilizing all dredged material from scheduled dredging in 2021.
- Additionally, the project will use dredged material in 2023 and 2025.

Project Phase	Est. Fed. Cost of Phase	Federal Funding through FY21	FY22 Requirement	FY22 Budget	FY23 Requirement	FY23 Budget
Feasibility	\$1.057M	\$1.057M	\$0	\$0	\$0	NA
Design/Implementation	\$8.5M	\$6.35M	\$0	\$0	\$0	TBD

Project Sponsor/Customer

- Letter of Intent submitted by Port of Ashtabula dated 24 July 2019.

Congressional Interests

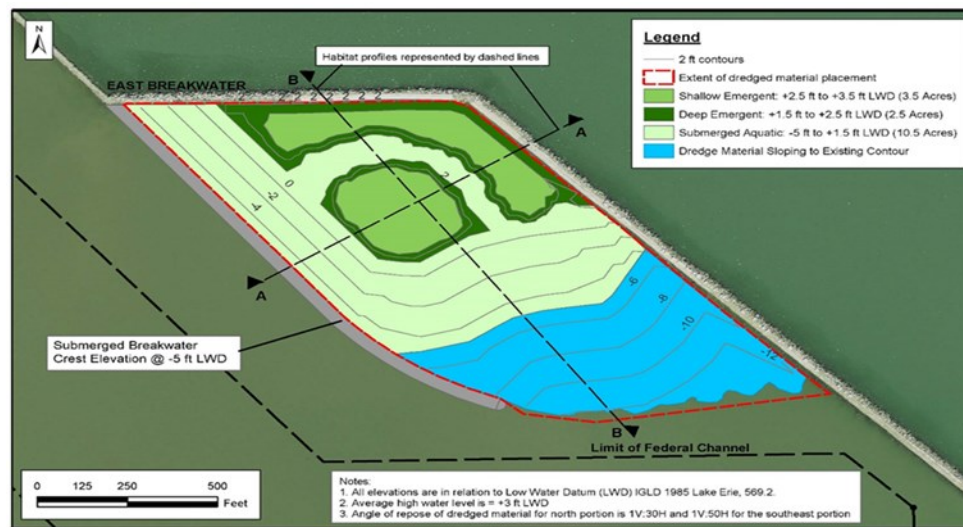

- Representative David Joyce R-OH-14
- Senator Rob Portman R-OH
- Senator Sherrod Brown D-OH

Current Status

- The Contract to construct submerged stone completed in October 2021. The PDT is now working to determine what type of contract will be needed after first dredge placement.

Risks/Issues

- Continuing to sync project with Dredging project.
